

February 23, 1955

A. P. O.

This was an open meeting.

President Killam gave a short speech explaining the purposes, organization of this fraternity.

Following this short resumé Professor Wilson, Head of the Geology Dept. gave a short talk on an expedition he took part in on the Greenland Ice Cap. Slides were shown in correlation with his speech.

The speech was very informative and was enjoyed by all.

Refreshments were served following the meeting. Applications, ^{for pledges} were handed out to students who were interested in joining the frat.

Respectfully submitted
Evar L. Knudtson,
